

Red Hat

What does it take to achieve digital transformation?

Fujitsu PRIMEFLEX and Red Hat® OpenStack® Platform

The strategy for many CIOs:

- Cloud first
- Flexible open technology platforms

By 2019, 30% of organizations that are due to refresh their integrated infrastructure system will shift to alternatives, such as reference architecture and HCIS offerings.²

What's the wish list for the on-premises part of your infrastructure?

But many CIOs are reluctant to commit to open source...

- Limited budget
- No best practice established
- Lack of key stakeholder investment
- No safe option available
- Legacy infrastructure

Fujitsu and Red Hat make sure your open source cloud infrastructure works for your business.

Red Hat

Market leader in open source

Ready-to-run integrated systems including servers, storage and software

Hyper-converged Infrastructure

HCI

- ✓ Pre-validated
- ✓ Pre-integrated
- ✓ High security
- ✓ Enterprise-class reliability

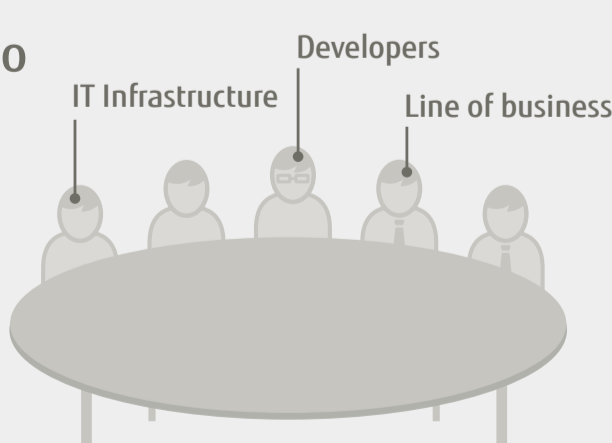

Visible to you: ease, speed and simplicity

Digital Transformation Platform Demo

We get all your stakeholders around the table to craft your individual solution.
